

Join the TNC Huawei ICT Academy

Elevate your career with industry-leading certifications in AI, Datacom, Security, and Storage. Tshwane North TVET College (TNC) provides a structured path for students to gain hands-on experience and professional credentials through our prestigious Huawei ICT Academy partnership.

Why Choose TNC?

TNC is not just an academy; it is a Huawei ICT Academy Support Center (IASC)

Link: [Learning Partner-Huawei Talent](#).

A Leader in Africa: TNC is one of only 9 IASCs in Africa and holds the distinction of being the first IASC in the TVET sector for South Africa.

Expert Support: As an IASC, we are authorized by Huawei to support the development and operations of other academies, ensuring our students receive the highest standard of instruction and resource support.

Student Prerequisites

ICT Background: While having an existing background in Information and Communications Technology is **ideal** and can help you progress faster, it is **not required** for enrolment.

Commitment to Learning: We welcome lifelong learners and industry practitioners who are eager to participate in the digital industry chain.

Tools for Success: We provide comprehensive teaching suites, including electronic materials, lab guides, and mock exams to support students from all backgrounds.

How to Register

Follow these steps on the <https://e.huawei.com/en/talent/portal/#/> to get started:

1. **Create a Huawei Account:** Register on the Huawei Talent platform if you are a new user.
 2. **Associate with TNC:** Log in and search for **Tshwane North TVET College** to submit your association application. Our administrators will approve your request to link you to our academy.
 3. **Join a Class:** After approval, go to "**My Classes**" and enter the **Class Invitation Code** provided by the ICT department to access your specific course materials.
